Solusi untuk error :

Di Mahasiswa.php

```
class Mahasiswa {  
  
    private $nim;  
  
    public $nama;  
  
    function setData($nim,$nama){  
  
        $this->nim = $nim;  
  
        $this->nama = $nama;  
  
    }  
  
    function getNim(){  
  
        return $this->nim;  
  
    }  
  
}
```

Di Index.php

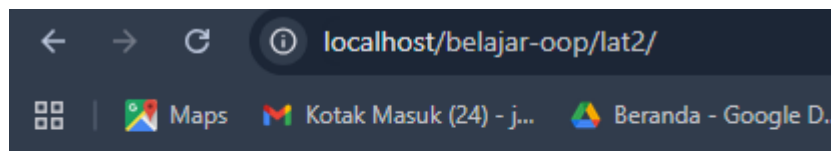

Mengubah :

```
echo $mahasiswa_1->nim;
```

menjadi :

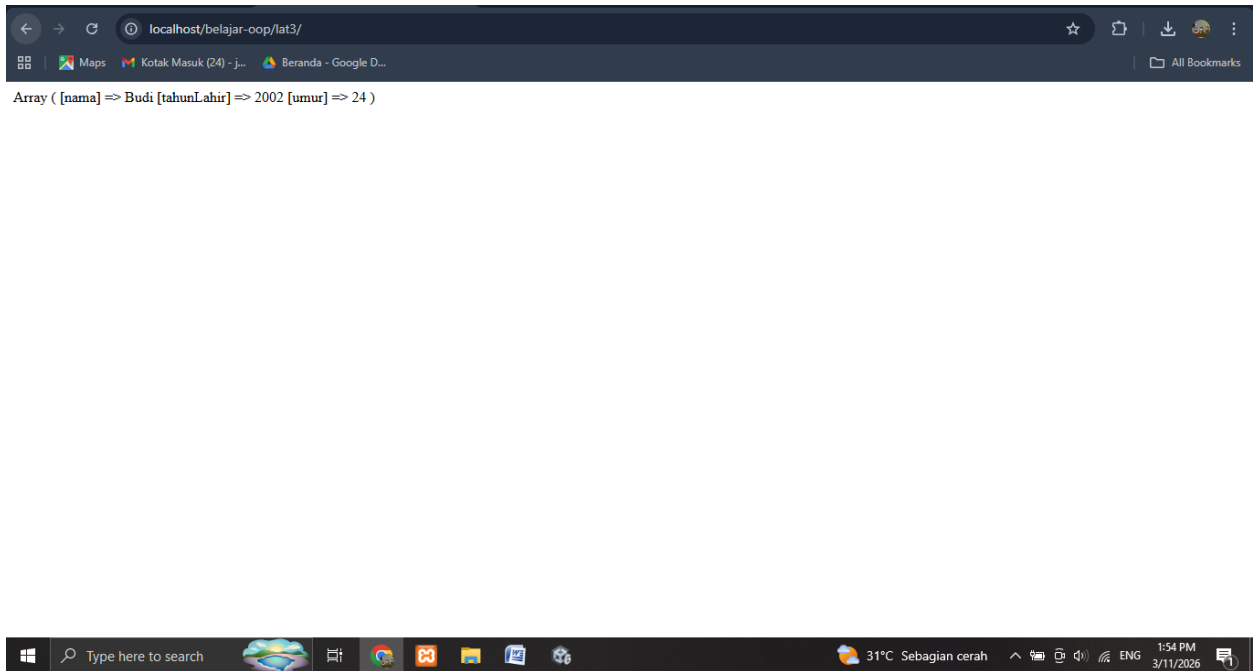

```
echo $mahasiswa_1->getNim();
```

Hasilnya setelah perbaikan :
